UNITED STATES CENSUS *Maps*

Ward Maps of U.S. Cities - Alphabetically Arranged

The reel of film with the number 1,377,700 has maps of cities in the UNITED STATES showing the political ward boundaries, so that patrons can locate the street shown in the census and thereby locate the ward boundaries. These ARE NOT the boundaries for the wards of the LDS Church congregations.

The maps are arranged in alphabetical order by the city, NOT by state, and then by cities within the state. It will benefit you to look at this reel of film so that you can better assist patrons having trouble locating a specific address within a large city.
